City Manager's Message

Calvin A. Canney
City Manager

Deborah L. Mullins
Secretary

To the Honorable Mayor and members of the City Council and the Citizens of the City of Portsmouth, New Hampshire:

It is my pleasure to present to you the 1982- 1983 Annual Report of the City of Portsmouth. I hope you will find it helpful as a comprehensive guide to the accomplishments during the fiscal year.

Included in this report are accounts of various Portsmouth activities as well as concise records of the municipal functions as they were carried out. Reading the report will be time well spent in that it provides you, the taxpayer, with information essential to understanding distribution of tax revenues and how they meet the needs of our community.

I would like to thank all those who devoted time to the service of their community. These interested citizens and employees have improved the quality of life in Portsmouth through committee appointments, efforts to beautify the City, and other services too numerous to mention though equally deserving of credit.

I look forward to a continued association with those interested in the future of Portsmouth, and I encourage individuals to take part in the affairs and development of the City of Portsmouth.

Sincerely,

The Tugboats of Portsmouth.

It is my pleasure to submit the Annual Report of the Portsmouth Fire Department of fiscal year 1982-83.

I'm happy to report that fiscal year 1982-83 reflects a marked decrease in the incidents of fire in the City of Portsmouth, both structural and non-structural.

This may be attributed in part to the increased efforts of our fire prevention programs conducted by personnel of the Department under the direction of Deputy Chief George Pierce, together with State and Local legislation requiring the installation of smoke detectors in apartments and single family homes.

Our department is constantly increasing its efforts in fire protection and prevention by scheduling in-service fire inspections to familiarize all personnel and citizens with fire hazards in our community, and I feel that these programs are having a positive effect in reducing the incidence of fires by opening lines of communication between the fire service people of our city.

Due to the efforts of the Training Division, under the direction of Deputy Chief Leonard Goyette, all permanent firefighters have successfully passed mandatory training standards for firefighter level one which is required by the State of New Hampshire Fire Service Training Commission.

The department will continue in its efforts to provide the highest level of service to our community in fire protection and ambulance service.

Fire Alarms

Total number of alarms (all causes)	1,048
Total number of fire responses	654
Structural	269
Non Structural	198
Transportation	177
Mutual Aid	10
	<hr/>
	654
Ambulance calls (Emergency)	992
Non-Emergency Ambulance Calls	
(transfers)	417
Total ambulance calls	1,409
False Alarms (Malicious)	116
Faulty Alarms (due to weather, malfunction or accidental)	138

Capt. Gindlesperger (retired)	05/15/83

Fire Prevention

George Pierce, Deputy Chief Fire Prevention/Control

The FY 1982/83 has been the fifth year of operation as the Bureau of Fire Prevention & Control of the Portsmouth Fire Department. To meet the Fire Prevention Bureau's goal of "Providing a reasonable degree of safety to life and property from fire by limiting and eventually reducing the number and severity of fires occurring in our City", the Bureau has continued to provide Portsmouth's homeowners, businessmen, archi-

tecs, builders, planners, insurance companies, school officials, health care personnel, and various city officials with property surveys, technical consultation, educational and investigative services. As a result of the services provided, properties surveyed have become safer from fire and an improved appreciation of the fire problem by owners and occupants of buildings has been developed.

Training

Leonard P. Goyette, Deputy Chief Training Division

In-service training of firefighters while on duty totalled 3405 manhours and consisted of all phases of firefighting practices, in addition to the following subjects:

Pre-fire surveys; Public Works dispatch procedures; Platoon Safety meetings; Mock disaster drills with Portsmouth Hospital; E.M.T. 24 hour refresher course; Hurst tool (Jaws of Life) operations; Forestry Firefighting drills; M.A.S.T. Trouser Course; Advanced First Aid.

Additional courses totaling to 1444 manhours scheduled by outside agencies and attended by fire personnel:

N.H. Certified firefighters course; Application of Fire Detection Technology; Collaborative Management; Mass Casualty Triage Management; Hazardous Material Incidents, etc.

I would like to take this opportunity to express the appreciation and thanks of the Fire Department to the Portsmouth Rotary Club and other contributing service organizations for donating the "Jaws of Life" Hurst Tool to our department. It has been instrumental in saving the lives of many accident victims who were trapped in vehicles since it was put in service.

Moving of the Gundalow by Oxen

Legal

Robert P. Sullivan
City Attorney

Betty A. Hollick
Secretary

Robert P. Sullivan, Esquire

Throughout the Fiscal year, the City's Legal Department dealt with a wide variety of legal matters. Among these were labor grievances, some which were brought before the Public Employee's Labor Relations Board, fire code violations involving Theatre-by-the-Sea, insurance matters, adjudication of juvenile matters, environmental law regarding the Bow Street sewer, and internal police matters. The Legal Department continued its routine representation of the various Boards and Commissions of the City, including the City Council, Board of Education, Board of Adjustment, Planning Board, Building Code Board of Appeals, the Historic District Commission, the Police Commission, and the Trustees of Trust Funds.

Some of the major items of litigation initiated or completed in 1982/83 were as follows:

Austin v. City
New England Fishing Gear v. City
Daigle v. City
Mayo v. City
In Re Margeson's, Inc.

The city Attorney also addressed current issues in seminars, including lectures to the Chamber of Commerce and the Stop Seacoast Crime Committee. An in-service seminar for the Portsmouth Police Department was also conducted.

The Portsmouth School District is comprised of eight schools in the City of Portsmouth, New Hampshire. As of October 18, 1982, school enrollment was as follows:

High School	1,737
Junior High	689

Elementary

Brackett	617
Dondero	430
Little Harbour	481
New Franklin	299
Sherburne	124
Wentworth	245
Total	4,622

The High School is completely comprehensive and offers vocational education and four foreign language courses which are open to all students

SAT (Scholastic Achievement Test) scores for the 1982-83 school year are:

Verbal	436
Math	451

Future plans of the Class of 1983, as stated by the students prior to graduation:

Students going into four year education	29%
Students to other schools	16%
Students to the armed services	6%
Students into work	40%
No definite plans	9%

Library

Sherman Pridham, Director

During the past year the library continued its advance into the computer age. The Apple computer furnished for public access continued to receive heavy use. On the average it was in use over six hours per day. To promote the goal of computer literacy for the public, as well as the staff, the library provided two computer courses. The first was an eight week course in BASIC programming. The second was a computer workshop series designed to introduce beginning computer users to the world of computers. The workshops were informal and unstructured so that the instructor could deal with the questions and concerns of the people present. Workshop participants had the option of bringing their own computer. The work shop ran from January through May.

To further promote computer literacy the library initiated a program to loan VIC 20 computers. Patrons were able to take a computer home for a two week period. This has proved a popular program. The computer is loaned with the tape drive, manuals, cassettes and cartridges. Portsmouth Public Library has received national attention for its programs in computer literacy.

The library staff has used an Apple computer to computerize some of the library files. This has been a learning experience for the staff. The acquisition of library materials is computerized, as well as inventories of computer hardware and software and an inventory of the Fiction Deposi-

tory. The trustees income and expenditures are on the computer. The computer also serves as a word processor for reports and some correspondence.

The Friends of Portsmouth Public Library again sponsored the Valentine's Day dance and fund raiser. The money raised was designated to be used to promote computer literacy at the library. To date additional computer programs have been bought for the public computer. The Trustees of the library have continued their commitment to library computerization with the purchase of computer software and equipment. They have also provided the funding for the computer courses and workshops.

A book theft detection system was installed in the library during the first week of August. The library was closed while the staff inventoried and weeded a large portion of the non fiction collection. The staff also installed the detection devices in the books.

Reregistration of library borrowers was started this year. This is done to update our files on each patron and to weed out the names of people who no longer use the library. The process will take over a year. This year the fee for non resident borrowers increased from \$10 to \$25 per year. This dramatically decreased the number of non resident borrowers from 403 to 146 or a 63.8% decrease.

The Deer Street Archeology Dig

Portsmouth Public Library sponsored various programs during the year. The Brown Bag Special, co-sponsored with Strawberry Banke, was once again well received. The six programs included such topics as "The Archaeology of Portsmouth" and "The New England Ski Museum". Film programs were a popular attraction. The library showed 5 films at the Prescott Park Arts Festival, had a mystery film series, during November and December and showed DeRochmont's "Animal Farm" in May.

Two author open houses were held at the library. In September there was a large turnout for May Sarton. Miss Sarton autographed books and there was a film about her. In April there was a reception for Richard Winslow the author of "The Piscataqua Gundalow" and Ray Brighton, who is writing a biography of Tobias Lear.

The Air Force Brass Quintet and the Woodwind Quintet performed at the library. During the spring the School for Lifelong Learning provided several business courses to the public. The library was a sponsor of several Stop Seacoast Crime programs. Century 21 Realtors and the Police Department provided the library with electric engravers so that patrons can borrow them and mark their valuables at home.

The library meeting rooms continued to be used heavily for meetings of local organizations.

The Information and Reference staff answered

over 18,000 questions this year. They work closely with other area libraries to get the patron the information they want. Portsmouth is one of the heaviest users of the database searching service at the State Library. Four bibliographies were produced: an update of Business Resources, Business Resources For the Professional Manager, Microprocessors In Business Applications, and Investment Resources.

The Children's Room continued to provide a wide range of materials, services and activities. The collections of cassettes, cassettes and book kits, records and book kits, and toys enjoyed wide circulation.

Outreach in the community included book talks in the public schools, cooperation with school librarians through monthly meetings, participation in Project Little Kids, and speaking to community groups.

The Summer Reading Program, Voyage to Book Island, featured a trip to Boston's Aquarium and tide pooling at Odiorne Point. *The Kid's Room Gazette* was published to involve children in reporting on books and library activities. In addition to regularly scheduled story hours, special story and film programs were held for nursery and other school groups.

Promotions to encourage reading included programs for Children's Book Week, National Library Week and I Love to Read Week.

Services and Programs A to Z

AV equipment	Facilities to aid the handicapped patron	Pamphlet file
Art exhibits	Films to loan to groups	Paperbacks
Art prints to loan	Financial information	Pleasure reading

Dr Dorothy Vaughan Receives Citizen of the Year Award

Planning Department

Samuel A. Cioffi
*Planning and Community
Development Director*

David M. Holden
Planner I

Stephen Brewer
Associate Planner

Nancy F. Hobbs
Administrative Assistant

Samuel A. Cioffi, Director

The Planning Department provides staff assistance to the Planning Board, the Board of Adjustment, the Historic District Commission and the Citizen's Council on Community Development. The Department makes recommendations to the City Council and City Manager on issues relevant to the development of the community. The Plan-

ning Director serves as Chairman of the Site Review Committee, which reviews the site plans for industrial, commercial, major residential, and parking lot developments to insure that public interests are protected. The Planning Department also files applications for state, federal and private grants.

Planning Board 1982-1983

E. Warren Clarke, Chairman

During 1982-83, the Planning Board held twelve regular and special meetings. The Board acted on 14 requests for subdivision approval, six requests for lot line changes and a special subdivision to allow for the development of Betty's Dream, a complex of 24 apartments for the non-elderly handicapped. Public Hearings were held to approve an amendment to the Zoning Ordinance adopted May 20, 1982. The Planning Board presented to the City Council for its approval the Capital Budget and Improvement Program for 1984-1989 and worked with the Planning Department on several Coastal Zone Management program grants.

The purpose of the Zoning Ordinance and zoning map is to promote the health, safety, morals, and general welfare of the City's residents. The work on the new Zoning Ordinance is based on the adoption of a new Master Plan in 1980. The Zoning Ordinance and the Subdivision Rules and Regulations are the major controls to ensure the orderly growth and development of the City. The Zoning Ordinance regulates and coordinates the use of land throughout the City by establishing standards for such things as lot area, open space, land uses and setbacks. The Subdivision Rules and Regulations govern the division of land areas to ensure the proper distribution of population which is compatible with adjacent land uses, to ensure the proper location and width of streets,

and to ensure the use of established engineering standards.

Among actions taken by the Board were an amendment to the Zoning Ordinance controlling apartment conversions which was approved with the intention of alleviating a City-wide problem of overcrowding, particularly in the South End. The subdivision of a lot for TVC Trust marked an expansion of the Portsmouth Industrial Park as well as one of the city's first recipients of a Portsmouth Economic Development Loan.

The Planning Board denied a request by T M Development to subdivide a lot of 16.4 acres. There were a number of concerns raised by this request, most resulting from inadequate site research and substandard lot division.

The Lafayette West Industrial Park was started with a subdivision of 94.19 acres into 28 lots which are in the process of being developed.

Under the New Hampshire Coastal Program there were a number of proposals for project grants under two project categories — the Coastal Energy Impact Program and the Coastal Program Local Assistance Grants. Completed through funds from 1981 - 1982 was a study on the re-use feasibility of the Daniel Street Power Station.

Board of Adjustment

Richard Gamester, Chairman

The Board of Adjustment provides a "release valve" for situations where a literal enforcement of the Zoning Ordinance will result in unnecessary hardship to a property owner. The Board of Adjustment hears petitions for Variances and also hears requests for Special Exceptions as allowed in the Zoning Ordinance together with Administrative Appeals. The Board also hears any appeal from a decision made by the Historic District Commission.

In 1982-83, the Board held 85 Public Hearings. There were 100 appeals for Variances. Of these 75 were granted (many with conditions attached, 18 were denied and seven were tabled or withdrawn for an approval rate of 75%. There were 28 requests for Special Exceptions. Of these, 20 were granted, four were denied and four were tabled or withdrawn for an approval rate of 71.4%. There were also six requests to subdivide, two of these were granted.

Community Development

Samuel A. Cioffi, Director

During fiscal year 82-83, the City of Portsmouth Community Development Department participated in the following programs and projects:

A Safe Place

Provided Partial funding for the center's program of aid and support to children of battered spouses.

Community Day Care Center

Provided partial funding of the Center's child care program to low/moderate income families.

Community Health Services

Portsmouth Community Health Services provides specialized home care for individuals with acute illnesses and homemaker-health aide services to low/moderate income persons of handicapped or health-impaired families.

Portsmouth Economic Development Loan Program

Provided funds to initiate a new industrial/commercial loan program. The loan program is designed to provide favorable financing to local businesses wishing to expand or relocate in the City.

Asbestos/Lead Base Paint Removal

Provided funds to pay for the removal of lead base paint and asbestos from the Community Center and the Community Day Care Center.

Christian Shore Housing Rehab Program

Provided funds for a low interest loan program to property owners to identify and correct structural, mechanical or related problems; such as foundations/chimneys, insulation/storm windows, plumbing, electrical and heating systems. Target area has been defined as the Christian Shore neighborhood.

Public Works

Daniel W. Ayer, P.E., Director

The Public Works Department is directly responsible for the administration and direction of the highway, water/sewer, and engineering divisions. The foregoing with the support of supervision and staff personnel are responsible for the budgeting, allocating, and performance of services in the following divisions.

Highway Division
Water/Sewer
Engineering

Highway Division

Russell Pratt, General Foreman

General Foreman, Russell Pratt, coordinates and is responsible for operations of the following subdivisions:

- I. Rubbish Collection and Disposal
Parks & Cemeteries
Street Cleaning
Tree Program
- II. Street Maintenance
Building Maintenance
Sidewalk Maintenance
Bridge Maintenance
Mosquito Control
- III. Equipment Maintenance

The rubbish collection and disposal subdivision collects and disposes a portion of the city's refuse to the new Refuse to Energy Plant at Pease Air Force Base (This plant has been in operation since July 1982.) The remainder of refuse is collected by private contractors and also taken to the Energy Plant.

Public Works Disposal of Refuse to Energy Plant	7,607 tons
Commercial Disposal of Refuse to Energy Plant	15,298 tons
Total	22,905 tons

Also the subdivision is responsible for general maintenance of 7 parks, 5 cemeteries and the street cleaning operation of city owned streets, and the care and maintenance of city owned trees.

The street maintenance subdivision maintains approximately 113 miles of city owned streets, together with 100 plus miles of sidewalks. Repairs and maintains 9 city owned bridges which includes design, design review, and actual construction. Also this subdivision is responsible for all city yard maintenance and major repairs to city owned buildings with the exception of school property. This subdivision also handles the city wide mosquito abatement program.

The equipment maintenance subdivision maintains and occasionally rebuilds 130 pieces of city owned equipment.

Water Division

Rance Collins, Superintendent

The water division, of the public works department, utilizing 128 miles of water mains, containing 1660 valves and 666 hydrants supplies potable water to, in excess of 6100 residents, commercial and industrial service connections within the communities of Portsmouth, Madbury, Durham, Rye, Greenland, New Castle, and Newington. Potable water is sold at the wholesale rate to both the Towns of New Castle and Rye, who retail the water through their own distribution systems.

The water division is a self-funding enterprise operating solely on the revenues received from the sale of water.

Major objectives of the water division are to supply a sufficient volume of quality water to all users, and to satisfy both demands for domestic consumption and fire protection.

A recently completed system study points out the need for additional storage, and mains which should be replaced with larger pipe. It is optimistically anticipated that the rate of inflation will, in the foreseeable future, return to the point where funds can be set aside for needed improvements. Recent rate increases have only allowed the water division to keep pace with inflation while attempting to minimize the impact on the water users. The water division consists of three operational subdivisions:

Production

The water production group operating from the Madbury Treatment Plant are responsible for collecting, treating and pumping of potable water. A modern laboratory staffed by a water chemist and lab technician perform sampling, testing, and the necessary reporting to State and Federal authorities.

Distribution

The distribution system group, operating from Sherburne Station are charged with the responsibility of maintaining the water mains, valves, and hydrants located in the distribution system. At Sherburne Station there exists a well equipped meter maintenance facility where water meters are periodically brought from residences and businesses to be tested, rebuilt, and placed back in service.

Management

The management and accounting group, located at City Hall and the Public Works Building, provide superintendence, accounting, billing, and meter reading.

Sewer Division

Rance Collins, Superintendent

The sewer division, of the public works department, utilizing approximately 100 miles of mains, 1628 manholes, and eight lift stations collects and transports the effluent from residential, commercial, and industrial structures to the Pierce Island Treatment Plant.

The sewer division is a self-funding enterprise operating solely on the revenues collected, based upon the volume of water consumed at each structure located along the sewer collection system.

The sewer division consists of two sub-divisions:

Collection

The sewer collection maintenance group, operating from the public works building, is responsible for cleaning and repairing the collection system.

Treatment

The water treatment group, operating from the Pierce Island Treatment Plant, is responsible for the maintenance of the eight lift stations and two treatment plants.

Superintendence, accounting, billing, and laboratory functions are shared with the water division for purposes of economy, while avoiding unnecessary duplication.

Engineering Division

Steven Parkinson, P.E., City Engineer

City Engineer, Steven F. Parkinson, P.E., is responsible for all of the city's engineering needs. These include water, sewer, drainage, highways, refuse to energy and buildings. The engineering division is basically split into two sections, engineering/construction and building inspection. The engineering/construction section performs field

surveys, studies, designs, plans, specifications, reviews, administers, and construction inspection for whatever projects it is assigned. The building inspection section has the duties of enforcing zoning, building, electrical, plumbing and housing codes.

Engineering/Construction Projects

Annual Municipal Building Inspection Program.

Biennial Bridge Inspection Program.

Ongoing Sewer Survey of the City Sewage System.

Administration and Inspection of the Junkins Ave. South Mill Pond Causeway.

Review and Inspection of New England Telephone Construction Projects.

Review and Inspection of the Refuse to Energy Facility.

Administration and Inspection of the Aldrich Road Storm Drain.

Administration and Inspection of the Lafayette Road Pumping Station Renovations.

Administration and Inspection of the Pierce Island Bridge Rehabilitation Project.

Design, Administration and Inspection of the Four Tree Island Recreation Park Erosion Control Project.

Design, Administration and Review of the Court Street Rehabilitation Project Phase I.

Administration and Review of Ongoing Sewer Separation Program.

Review of the Maplewood Avenue and Edmond Avenue Intersection Project.

Design of the Rehabilitation of the Boston & Maine Railroad Yard Sewer Line.

Review of the Market Street Extension Project.

Review and Administration of the Design for Improvements to the Sewer System Downstream of the Lafayette Road Pump Station.

Review and Administration of the Design for the Replacement of the State Street Water Main.

Review of the Design for the Prescott Park Docking Facility.

Review and Administration for the Design of the Banfield Road Widening.

Review and Administration for the Land Survey of the Wentworth Property/Conservation Land.

Design, Administration and Review of the Parrott Avenue and Wright Avenue Parking Areas.

Inspection Division

Carl Sampson, Chief Building Inspector Dale Burkhart, Electrical/Building Inspector
George Browning, Plumbing Inspector John Grattan, Housing Code Inspector, Zoning Officer

The inspection bureau encompasses the following areas: Building, Electrical, Plumbing, and Housing Code Inspection.

The following is a breakdown of the activities of the inspection bureau from July 1, 1982-June 30, 1983.

Inspection Breakdown

The City of Portsmouth began construction of a Resource Recovery Facility on August 11, 1981 which became operational July 1, 1982. The Facility contains four 50-ton per day starved air modular units which operate 24 hours/day, 7 days/week and will annually produce 250,000 M.B.T.U.'s of steam energy at about 300 pounds pressure. The steam goes through a heat exchanger at the Central Heating Plant of Pease Air Force Base where it heats high temperature hot water for space heating and processing. It is anticipated that in 1984 the steam will also be used to produce electricity through co-generation.

The City has a contract with Consumat Systems, Inc. for up to ten years for the operation of the Plant, a ten-year warrantee on the production of steam, a ten-year contract for the purchase of steam, ten-year contracts for the supply of solid waste from surrounding communities and a ten-year tipping fee of \$7.50 per ton. The cost to the Air Force for the steam is based upon 90% of the cost of oil produced steam.

The four 50-ton per day units burn a minimum of 170 tons of waste per day from Portsmouth, Pease Air Force Base, Portsmouth Naval Shipyard and other local communities. Wastes are delivered to the Plant by both private and municipal haulers.

The cost of the Facility was approximately \$6,270,000 which was financed through general obligation municipal bonds. Special legislation was introduced in order to allow the City to extend its general obligation bond capacity to cover the funding of this project.

The first year's operating budget including debt service and maintenance reserve is \$2,079,000.

For the period from July 1, 1982 through July 1, 1983, the Portsmouth Energy Recovery Plant has processed 67,379 tons of waste which produced steam from which Pease Air Force Base purchased 216,000 M.B.T.U.'s of energy.

Resource Recovery Facility

Conservation Commission

Clotilde M. Straus, Chairman

During the year, 1982-1983, the Conservation Commission held four regular meetings at City Hall dealing with issues and projects related to City beautification, wetlands and natural features preservation.

City Beautification

From the Commission's annual budget of \$1,200, a total of \$180 was expended for the purchase of annual flowering plants for 9 flower beds throughout the City, 13 decorative urns in the Vaughn Mall parking lot and the 6 flower boxes which adorn City Hall. The planting designs were prepared by the Commission's chairman. Preparation of the beds, planting and maintenance were carried out through the enthusiastic support of the Department of Public Works with Mr. Robert Springer in charge of all gardening tasks.

With a budget of \$4,000 from Community Development Funds, a total of 26 shade trees was planted under the auspices of the Commission in the northerly half of the City.

Wetlands Protection

In matters of wetlands protection, field investigations were conducted in nine sites involving applications to the State Wetlands Board for permits to dredge or fill. Recommendations were sent to the Board in the majority of the cases.

Instruction was received from the Office of State Planning pertaining to future mapping of the City's prime wetlands.

Pond newly designated for conservation

Animal Control

Robert Reynolds, Animal Control Officer

Calls Recieved	2,987
Dog bites reported to Animal Control	46
Animal bites other than dogs reported	19
Dogs picked up and impounded	186

Economic Commission

Christopher F. Sheridan
Economic Development Director

Christopher Sheridan, Economic Development Director

The fiscal year 1982-1983 saw many changes in Portsmouth's economic profile, as well as the initiation of several major on-going projects. The principal changes that took place over the past year are summarized below:

After extensive discussion and negotiations with the developer, the Commission's recommendation was approved and the City Council granted an option to Shelter Group of Lewiston, Maine for the development of Parcels 1 and 2 in the Downtown Urban Renewal Area. The development is scheduled to include a 150 room Sheraton Hotel, conference facilities, condominiums, a 50,000 s.f. office building and related parking. The Commission prepared an application for an Urban Development Action Grant (UDAG) for \$5,500,000 as part of the development proposal.

An application for a \$2,600,000 Urban Development Action Grant was also filed as part of the \$12,000,000 Outlet Mall of New England (OMNE) project on the Spaulding Turnpike.

A new building to house the hydraulic operations for Browning Ferris Company was initiated on Constitution Avenue in Portsmouth Industrial Park South.

Preliminary subdivision plans were approved for a 22 lot industrial subdivision at Lafayette and Peverly Hill Roads, on property owned by Iafolla Industries.

The U.S. Department of Commerce approved the establishment of a Foreign Trade Zone (FTZ) at the N.H. Port Authority Pier facilities.

A 25,000 s.f. "spec" building was completed in Portsmouth Industrial Park North on Heritage Avenue. The first tenant for the new building was Meramac Industries.

The City's application to establish a Certified Development Company under the Small Business Administration's (SBA) 503 Program was approved. The SBA 503 Program operates through a local non-profit corporation and assists businesses to obtain long term, fixed rate financing for fixed asset acquisition. This corporation — named the Granite State Economic Development Corporation — was the first such company organized in the State.

The first loan packaged by Granite State and approved by SBA was for the construction of a new manufacturing building for the Value Company on Constitution Avenue in Portsmouth Industrial Park.

The Economic Commission commenced the development and operation of a local industrial loan program to be funded by Community Development funds. This program, entitled the Portsmouth Economic Development Loan Program (PEDLP), would make available low-interest, long-rate financing for capital projects for firms either expanding in or relocating to Portsmouth. The PEDLP program, at the Commission's recommendation, received an initial capitalization of \$200,000 from the City Council.

During this fiscal year, two PEDLP loans were initiated and closed, one for a \$50,000 modernization program at Pic N' Pay, and the other for \$18,000 for the construction of a manufacturing building for the Value Company on Constitution Avenue.

The City received a national award from the U.S. Department of Housing and Urban Development (HUD) in recognition of its outstanding efforts in economic development, specifically with reference to the Heritage Avenue Industrial Park and the Portsmouth Economic Development Loan Program (PEDLP). The Economic Commission can feel justifiably proud of their leadership role in these projects.

Commission members over this period included:
Chairman, Russell VanBilliard
Vice Chairman, Robert A. Allard
Sophie Berounsky
Marshall A. Tebbetts
Edward T. Burnham
Simeon P. Jarvis
Richard Salvas
John J. Mikolajczyk
Dallas Herold
Charles Eldredge
Peter G. Weeks, Mayor
Calvin A. Canney, City Manager
Christopher F. Sheridan, Economic Director

The Economic Commission will continue to strive in the next fiscal year for the attainment of their primary goal of economic betterment for the City.

Purchasing

Robert Sombric
Purchasing Agent
Claire D. Brulotte
Account Clerk

Robert Sombric, Purchasing Agent

The Purchasing Department issued 68 formal bid invitations for items or services valued at \$1,000 or more during fiscal year 1982/1983. Items valued over \$200 were purchased through written or telephone quotations (a minimum of three (3) quotes per item is a standard procedure). These two types of competitive purchasing practices have proven to be the most effective in procuring quality materials, supplies and services at the lowest reasonable cost to the city.

The total sum of \$7,011 was collected as revenue from sales of city-owned surplus equipment.
